#### 1. PROPERTIES FOR SALE

- a. **Number Active:** The number of listings for sale which are currently being marketed but do not yet have a purchase agreement.
- b. Average Days on Market (DOM): The average marketing period of currently active listings. This does not account for some listings which have had a previous listing period, but were re-entered as a new listing.
- c. Average List Price: The average price that a seller is currently asking.

#### 2. CONTRACTS PENDING

- a. Number Pending: The number of current listings for which a contract has been signed but has not yet closed.
- b. Pending Ratio: Sometimes called a "list-to-pending ratio". This is a measure of how fast properties are going under contract vs. how fast they are being listed.

- (P) represents properties that buyers have chosen
- (A+P) represents the entire pool from which they have chosen

#### 3. OFF-MARKET

a. Number Off-Market: The number of listing agreements that have failed to close in the last 6 months. Some owners may choose to re-offer their property for sale.

#### 4. PROPERTIES SOLD

- a. Number Sold: The number of properties that have gone to a closing in the last 6 months.
- Average Days on Market (DOM): The average marketing time it has taken properties to sell in the last 6 months.
- c. Average Original List Price: The average price at which a sold property was originally marketed.
- d. Average List Price: The average price at which a sold property was marketed just prior to selling.
- e. Average Sold Price: The average price for which a property sold.
- f. List to Sales Ratio: The percentage of the list price that the buyer ultimately paid for the property.

#### 5. OTHER

a. Absorption Rate / Months of Inventory: An estimate of how fast listings are currently selling measured in months. For example, if 100 properties sell per month and there are 800 properties for sale - there is an 8 month supply of inventory before counting the additional properties that will come on the market.
